

D & J Franks Renewables are specialists in Biomass and Air Source Heating installations and have a wealth of expertise with these technologies. Our customers include: Manufacturing companies, Food Processing companies, Care Homes, Hotels, Logistics and Haulage, Boarding Kennels, Equestrian Centres, Barn Conversions and District Housing Schemes

DID YOU KNOW...

By having a Renewable Heating system installed in your commercial premises, you can not only **SAVE MONEY** on your heating bills but you can

MAKE MONEY through the government's commitment to give you a Renewable Heat Incentive (RHI) over 20 years!

This can be anything from **£100,000 - £1 Million** payback over 20 years

DID YOU KNOW...

In Austria over 50% of commercial and domestic heating is provided by wood-fired boilers

"We were looking to upgrade our heating system earlier this year. D&J Franks Renewables surveyed our business premises and provided us with various renewables options. After looking at alternatives D&J Franks installed the system of our choice on time and to budget. We were delighted with the outcome we know have an upgraded system that helps us run Bases of Alnwick more efficiently.

Samantha Basey, Director, Bases of Alnwick

DID YOU KNOW...

Biomass isn't a new technology – automatic wood fuel boilers were first developed over 30 years ago

CASE STUDY...

A typical Care Home project costs around £200K (paid over 6 years), in the first year the customer will make £32K in savings and over the 20 years of RHI payable receive nearly £1.2M

DID YOU KNOW...

The government Renewable Heat Incentive is not only guaranteed for 20 years by primary legislation but it's also linked to inflation
